

OPALE

HANDS-FREE INTERCOM VIDEO RECEIVER FOR RECESSED INSTALLATION

With the Opale line, Bpt enriches its range of video receivers, offering a model for recessed installation that is elegant and discreet in any setting. The product of the style and design of the latest generation video receivers, the new line offers two different models: Opale and Opale Wide, that differ in the size of their displays, of 4.3", 16:9 format or 3.5", 4:3 format, in their Touch Sensitive buttons that leave space on the Touch Screen with slide-away keys on the Wide model, and in some supplementary functions only available on the top model, like the video answer machine and the list of calls from the porter switchboard.

- A soft, modern look
- Image from outside in 16:9 format modifiable to 4:3 (Wide model)
- Ease of use

FUNCTIONS

- Colour LCD display 4.3", 16:9 format (Opale Wide) or 3.5", 4:3 format (Opale)
- Full-Duplex audio hands free (Opale Wide) or Half Duplex audio hands free (Opale)
- Door lock release
- Mute in conversation
- Self-connection from entry panels, with cycling operation
- 2 controls for activating auxiliary functions
- Ring tone disabling, with indicator light
- 8 intercom lines
- "Panic" button to call the Porter for assistance
- Programmable melodies
- Brightness, contrast and colour adjustment
- Video answer phone with 10 audio + snapshot messages (Opale Wide)
- Image zooming
- Automatic door release function with weekly programming (Opale Wide)
- Automatic answer function (Opale Wide)
- Call to Porter (Aux2)
- Switching between Master/Slave video receivers in a call at the same time (Opale)

Installation

The video receivers in the Opale line are designed to be installed in a recess with a special OPALESI box. The compact size and adaptability of the fitting bar for the most common embedding boxes (503, 506E or Ophera PHI embedding box) mean it can also be fitted to a wall using the OPALEKP bracket.
